Profile

3D Artist with 6 years of game art and 3D production experience, currently at 2K Games | Visual Concepts Studio Shanghai. Specializes in character clothing, body and hairstyle assets, environment assets, PBR texturing, and realtime optimization, covering the full workflow from garment patterning and cloth simulation to topology cleanup, material work, and engine validation.

Uses ComfyUI, Stable Diffusion, scripts, and custom nodes to support reference generation, concept exploration, batch iteration, asset organization, and production handoff.

Core Strengths

Game production experience

Contributed to NBA 2K26, NBA 2K25, NBA 2K24, NBA 2K23, NBA 2K MyTeam, and mobile character outfit projects.

Materials and realtime lookdev

Creates PBR textures and material nodes with Substance tools, then validates presentation in Unreal Engine, Unity, or the VC editor.

Character clothing pipeline

Builds garment assets with Marvelous Designer, CLO, and Style3D, covering patterns, cloth simulation, fold control, retopology, optimization, and texture painting.

AI and workflow tools

Builds ComfyUI workflows, batch scripts, and custom nodes for references, material tests, asset organization, and pipeline handoff.

Experience

2K Games | Visual Concepts Studio Shanghai

2022.06 - Present

3D Artist

Projects: NBA 2K26 / 2K25 / 2K24 / 2K23 Arcade Edition, NBA 2K MyTeam

- Create character clothing, body assets, athlete hairstyles, and selected environment assets for NBA 2K projects, meeting style, performance, and in-game visual requirements.
- Use Marvelous Designer for garment patterning and simulation, then complete retopology, texture painting, PBR material nodes, and VC editor validation.
- Build optimized environment assets with LODs and collision, support city map editing, lightmap baking, and VC material node authoring.
- Define Marvelous Designer production standards and provide garment workflow support to improve team efficiency and delivery consistency.

CLO Virtual Fashion | Marvelous Designer Team

2020.10 - 2022.05

Marvelous Designer Official Trainer / China Community Manager

- Provided Marvelous Designer technical support for enterprise art teams including EA and Virtuos, improving garment workflows, asset quality, and team usage standards.
- Handled China community Q&A, tutorials, case publishing, and MD / CLO preset assets, covering cloth simulation, import/export, topology handoff, and presentation workflows.

ALCHEMY Information Technology

2019.10 - 2020.10

3D Environment Artist

- Created mobile game environment, prop, and modular assets, including modeling, PBR textures, and material presentation.
- Optimized iOS and Android realtime assets through model planning, texture merging, and material consolidation while maintaining readability.

Freelance 3D Artist

2020 - 2024

Mobile Game Character Outfit Production

- Created character outfit assets for Peace Elite, Need for Speed, Racing Master, Shining Nikki, and Liu Yexi Digital Human.
- Balanced design accuracy, fabric quality, material presentation, polygon budgets, and mobile display needs.

Selected Projects

NBA 2K26 / 2K25 / 2K24 / 2K23 Arcade Edition
NBA 2K MyTeam
Peace Elite / Need for Speed / Racing Master / Shining Nikki / Liu Yexi Digital Human
GGAC Global Game Art Contest 2024, Style3D Special Award selected work

Education

Guizhou Minzu University **2016.09 - 2020.06**
Bachelor of Digital Media Art
Studied 3D design, game design, digital image processing, Unity development, photography, visual composition, and digital media art.

Skills

MODELING Maya / 3D Max / ZBrush / Plasticity
CLOTH SIMULATION Marvelous Designer / CLO 3D / Style3D
TEXTURING AND MATERIALS Substance Painter / Substance Designer / PBR material nodes
GAME ENGINES Unreal Engine / Unity / VC Editor
AI WORKFLOW ComfyUI / Stable Diffusion / generation model workflows
PIPELINE TOOLS Vibe Coding / Python Scripts / Custom ComfyUI Nodes

Awards

GGAC Global Game Art Contest 2024, Style3D Special Award, selected work
GGAC Global Game Art Contest 2019, Campus Group, 3D Character Excellence Award
